

107 Qlik Sense Interview Questions to Hire Top Talent

Questions

1. What is Qlik Sense and what is it used for? Explain it like you are explaining to a five-year-old.
2. Can you describe the difference between Qlik Sense and other data visualization tools you might have heard of?
3. What are the basic components of Qlik Sense, such as apps, sheets, and stories?
4. Have you ever connected Qlik Sense to a data source? If so, what kind of data source was it?
5. What is a Qlik Sense Hub, and how do you use it?
6. Can you explain what a dimension and a measure are in Qlik Sense?
7. What are filters in Qlik Sense, and how can you use them to analyze data?
8. Have you ever created a simple chart in Qlik Sense? If so, what type of chart was it?
9. What is the purpose of using bookmarks in Qlik Sense?
10. Can you explain what a Key Performance Indicator (KPI) is and how it's used in Qlik Sense?
11. What is the data load editor in Qlik Sense, and what is it used for?
12. Have you heard about Qlik Sense Cloud? What do you know about it?
13. What is a story in Qlik Sense, and how is it useful?
14. Can you describe a scenario where you would use a bar chart versus a pie chart?
15. What does 'drag and drop' mean in the context of Qlik Sense, and how does it help?
16. What is a 'field' in Qlik Sense, and how does it relate to your data?
17. How can you share a Qlik Sense app with someone else?
18. What is the difference between a selection and a filter in Qlik Sense?
19. What are the benefits of using Qlik Sense over just looking at raw data in a spreadsheet?
20. Explain what a calculated field is in Qlik Sense. Why would you create one?
21. What kind of training resources (online courses, tutorials, etc.) have you used to learn about Qlik Sense?
22. Imagine you have a table with sales data. How would you show the total sales for each region using Qlik Sense?
23. What does the term 'associative model' mean in the context of Qlik Sense?
24. What is the purpose of using 'set analysis' in Qlik Sense? Can you give a simple example?
25. How would you handle missing or incomplete data when loading it into Qlik Sense?
26. If you have a large dataset, what are some strategies you could use to optimize the performance of your Qlik Sense app?
27. What is Qlik Sense, in your own words?
28. Can you describe a time you used data to make a decision?
29. What are some different types of charts you know?
30. What is data visualization?
31. Have you ever used drag and drop functionality? How would you use it in Qlik Sense?
32. What is a filter in Qlik Sense?
33. Explain what you know about data models.
34. What does it mean to load data into Qlik Sense?
35. What are dimensions and measures in Qlik Sense?
36. Can you describe a simple project where you could use Qlik Sense?
37. What is the purpose of using color in a chart?
38. What is a dashboard?
39. How can you connect to different data sources?
40. What is the Qlik Sense Hub?
41. What is a story in Qlik Sense?
42. What is a calculated field?
43. Why is data quality important?
44. What is the difference between a bar chart and a pie chart, and when would you use each?
45. How can you share a Qlik Sense app with someone else?
46. What is the use of bookmarks in Qlik Sense?
47. What is an extension in Qlik Sense?
48. Can you explain how data is associated in Qlik Sense?
49. What does it mean to 'clean' data?
50. What's the difference between a master item and a regular object?
51. Explain what a KPI is and why is it important to monitor?
52. What are the different types of selections in Qlik Sense?
53. What is Qlik Sense Cloud?
54. What are the advantages of using Qlik Sense over Excel?
55. If you were given a messy spreadsheet, how would you start exploring the data in Qlik Sense?
56. How do you optimize Qlik Sense dashboards for mobile devices?
57. Explain the difference between a 'Let' statement and a 'Set' statement in Qlik Sense scripting.
58. Can you describe a scenario where you would use a Cyclic Group in Qlik Sense?
59. How would you implement row-level security in a Qlik Sense application?
60. What are the key considerations when designing a Qlik Sense data model for performance?
61. Explain the purpose and benefits of using incremental load in Qlik Sense.
62. How can you handle slowly changing dimensions in Qlik Sense?
63. Describe a situation where you would use the 'ApplyMap' function and explain how it works.
64. What are the different types of Qlik Sense licenses available, and how do they impact functionality?
65. How do you troubleshoot performance issues in a Qlik Sense application?
66. Explain the concept of 'Data Lineage' in Qlik Sense and how you would implement it.
67. How can you embed a Qlik Sense object into a web page or another application?
68. Describe the process of setting up and configuring Qlik Sense Enterprise on Kubernetes.
69. How do you manage and monitor Qlik Sense apps using the Qlik Management Console (QMC)?
70. Explain how you would use variables to control the behavior of a Qlik Sense application.
71. What is the purpose of the 'Where' clause in a Qlik Sense script, and how does it differ from 'If'?
72. How do you create and use custom themes in Qlik Sense?
73. Explain the benefits and drawbacks of using Direct Discovery in Qlik Sense.
74. How would you handle missing or incomplete data in a Qlik Sense application?
75. Describe a scenario where you would use a 'Join' operation in Qlik Sense and explain the different types of joins available.
76. What are the different types of charts available in Qlik Sense, and when would you use each type?
77. How do you create and use bookmarks in Qlik Sense?
78. Explain how you would implement version control for Qlik Sense applications.
79. Describe how you can use Qlik Sense to perform sentiment analysis on text data.
80. What security best practices should be followed while developing Qlik Sense applications?
81. Explain the difference between calculated dimensions and calculated measures.
82. How do you integrate Qlik Sense with other data sources, such as APIs or cloud services?
83. Explain how you would go about optimizing the performance of a Qlik Sense app that is slow to load or respond.
84. Describe a complex Qlik Sense application you developed, highlighting the challenges you faced and how you overcame them.
85. How have you utilized Set Analysis to solve a specific business problem, and what were the key benefits?
86. Explain your experience with Qlik Sense extensions and provide an example of when you would choose to use one.
87. Discuss your approach to optimizing Qlik Sense performance, including techniques for data modeling and expression design.
88. How do you ensure data quality and accuracy within Qlik Sense applications you develop?
89. Describe your experience with Qlik Sense's security features and how you have implemented them to protect sensitive data.
90. How have you integrated Qlik Sense with other business intelligence or data warehousing tools?
91. Explain your experience with advanced Qlik Sense scripting techniques, such as incremental load or binary load.
92. Describe a situation where you had to troubleshoot a complex Qlik Sense issue, and how you approached the problem.
93. How familiar are you with Qlik Sense's APIs and how have you used them in your projects?
94. Discuss your experience with collaborative development in Qlik Sense, including version control and code management.
95. Explain your understanding of Qlik Sense's data governance capabilities and how you have implemented them.
96. How have you used Qlik Sense to create data-driven stories and presentations for executive audiences?
97. Describe your experience with different Qlik Sense deployment options (e.g., on-premise, cloud) and their considerations.
98. How do you stay up-to-date with the latest Qlik Sense features and best practices?
99. Explain how you handle very large datasets within Qlik Sense, including strategies for efficient data loading and processing.
100. Describe a time when you had to redesign a Qlik Sense application to improve its usability or performance.
101. How do you approach user training and documentation for Qlik Sense applications you develop?
102. Explain your experience with Qlik Sense's mobile capabilities and how you optimize applications for mobile devices.
103. Describe a situation where you had to work with a complex data model in Qlik Sense, and how you simplified it for end-users.
