

# SAP FICO Consultant Job Description template

## SAP FICO Consultant Job Description Template/Brief

We are looking for an experienced SAP FICO Consultant to join our team. The SAP FICO Consultant will be responsible for the implementation, configuration, and maintenance of SAP Financial Accounting and Controlling (FICO) modules. This role involves working closely with clients to understand their financial processes and requirements and translating them into SAP system configurations. The ideal candidate should have extensive knowledge of SAP FICO modules, strong analytical skills, and experience in managing SAP projects.

## SAP FICO Consultant Job Profile

An SAP FICO Consultant specializes in the Finance (FI) and Controlling (CO) modules of SAP. They play a critical role in analyzing and configuring SAP systems to meet the financial and management accounting needs of an organization. This position requires a deep understanding of financial business processes, SAP FICO functionalities, and the ability to provide solutions for complex business requirements.

## Reports To

The SAP FICO Consultant typically reports to the SAP Project Manager or Head of SAP Implementation.

## SAP FICO Consultant Responsibilities

- Implement and configure SAP FICO modules according to project requirements.
- Analyze business processes in the finance domain and recommend improvements.
- Conduct requirement gathering sessions and document functional specifications.
- Configure and test SAP FICO modules to meet client needs.
- Provide training and support to end-users.
- Troubleshoot and resolve issues related to SAP FICO modules.
- Collaborate with other SAP consultants to integrate FICO with other SAP modules.
- Keep abreast of SAP updates, developments, and best practices in FICO modules.

## SAP FICO Consultant Requirements & Skills

- Proven experience as an SAP FICO Consultant.
- In-depth knowledge of SAP FICO module, including configuration and testing.
- Experience with financial accounting and reporting processes.
- Strong analytical and problem-solving skills.
- Excellent communication and client-facing skills.
- Ability to work in a team and handle multiple tasks.
- Bachelor's or Master's degree in Finance, Accounting, IT, or related field.
